

Music classes

Onomatopoeic songs and rhythmical movements

The teacher speaks French, English and Spanish.

Classes can be given in all 3 languages.

However, the main goal of these classes is for music to be the principal language.

All children, no matter what their mother tongue is, can participate.

Each lesson is divided in 2 parts:

1. Warming up the voice and the body by doing vocal exercises and rhythmical exercises in 2, 3 and 4 beats.
2. Creating songs without words, in group, with integrated movements that accompany the music.

These lessons are made to teach music in a very accessible and fun way, by letting children share their creativity.

Parents are asked to leave their children alone during the lessons in order for them to learn to integrate a new group, communicate their impressions and feelings, and to adapt to a new environment that is 100% musical.
